

These Conduits are made of soft polyethylene (PE). They are flexible, and have a small bending radius offering good impact resistance. They are suitable for various applications such as machine tool, industrial machinery, chemical machinery etc. These Conduits offer IP67 protection in combination with Conduit Glands. UV resistant Conduits are also available on request. These Conduits are available in grey and black colours and comply with EN 60529 and IEC 61386 standards.
