

Snap On Conduit Couplers

Distributors made of Polyamide can be used instead of a distribution box. These special connectors are used to clamp standard corrugated conduits. They can be configured into the basic shapes of Y (TYC), T (TTC), V (TVC) and straight through (TNSC). They are free for Halogen Phosphorous Cadmium.

Technical Data

Material	Polyamide 6
Colour	Black
Temperature Range	-40° C to +105° C Continuous
Protection Class	IP 67
