

Simple Seal

Simpleseal are special grommets which are simple to use and require no tools for installation. They differ from conventional grommets as they provide IP 67 protection. They can be installed from one side of the panel without any need for installation of lock nuts from the other side as in conventional cable glands. With these grommets necessity of blind stops is removed as in these grommets the opening is always sealed until the membrane is pushed out by the cable. These are suitable for enclosures with wall thickness from 0.5 to 4.0 mm.

Technical Data

Material	Thermo Plastic Elastomer
Colour	Black (RAL 9005) Light Grey (RAL 7035)
Temperature Range	-50° C to +125° C
Protection Class	IP 67 acc. to EN 60529
