

O Rings - For Metric Thread Cable Glands

O-rings are round sealing elements made up of NBR material with circular cross-sections and are mainly used in static applications. These sizes are defined by the internal width and the cross-section width. These rings can withstand a wide temperature range from -20-degree Celsius to 100-degree Celsius. They are available in Metric thread type.

Technical Data

| | | |
|-------------------|--|------------------|
| Material | | NBR, black |
| Temperature Range | | -35° C to +120°C |
| Threads available | | Metric Thread |

Ordering Information

Metric Threads

| Cat. No. | Internal Thread | Size | Thickness | Standard Pack (Pieces) |
|----------|-----------------|-----------|-----------|------------------------|
| OR-M12 | 10.5 | M12 x 1.5 | 1.5 | 50 |
| OR-M16 | 14.5 | M16 x 1.5 | 1.5 | 50 |
| OR-M20 | 18.5 | M20 x 1.5 | 1.5 | 50 |
| OR-M25 | 23 | M25 x 1.5 | 2 | 50 |
| OR-M32 | 30 | M32 x 1.5 | 2 | 50 |
| OR-M40 | 38 | M40 x 1.5 | 2 | 50 |
| OR-M50 | 48 | M50 x 1.5 | 3.5 | 50 |
| OR-M63 | 60.3 | M63 x 1.5 | 3.5 | 50 |
