

### Panel Mounting Inclined Sockets - CPSA512568

These sockets act as fixed female connectors and can be mated with male plugs. Connectwell inclined sockets are suitable for mounting onto panels which have a 'recess' behind them. The inclined sockets ensure that on mating the plugs remain at an angle to the panel surface thereby reducing the total space required for installation.

### Technical Data

Material	Copper Zinc Alloy (MS 58)
Voltage Rating (V)	400
Current Rating (A)	125
No of Pins	5
Ingress Protection	IP 67
Connection	Screw Connection
Contact Resistance	< 1m $\Omega$
Suitable Wire Cross Section Stranded	50
Suitable Wire Cross Section Solid	70

### Ordering Information

Cat. No.	Description	Std. Pack
