

Surface Mounting Sockets - CSS512568

These sockets act as fixed female connectors and can be mated with male plugs. Connectwell surface mounting sockets are suitable for mounting onto surfaces which do not have a ‘recess’ behind them. The surface mounting sockets ensure that on mating the plugs remain at an angle to the surface thereby reducing the total space required for installation. The surface mount housing is provided with a nipple to sustain the IP protection grade after insertion of cable.

Technical Data

Material	Copper Zinc Alloy (MS 58)
Voltage Rating (V)	400
No of Pins	5
Ingress Protection	IP 67
Connection	Screw Connection
Contact Resistance	< 1m?
Suitable Wire Cross Section Stranded	50
Suitable Wire Cross Section Solid	70
