

Surface Mounting Inlet - CSI51668

These inlets act as fixed male connectors and can be mated with female connectors. Connectwell surface mounting inlets are suitable for mounting onto surfaces which do not have a ‘recess’ behind them. The surface mounting inlets ensure that on mating the connectors remain at an angle to the surface thereby reducing the total space required for installation. The surface mount housing is provided with a nipple to sustain the IP protection grade after insertion of cable.

Technical Data

Material	Copper Zinc Alloy (MS 58)
Voltage Rating (V)	400
Current Rating (A)	16
No of Pins	5
Ingress Protection	IP 67
Connection	Screw Connection
Contact Resistance	< 1m?
Suitable Wire Cross Section Stranded	4
Suitable Wire Cross Section Solid	6
