

Panel Mounting Inclined Inlet - CPIA31668

These inlets act as fixed male connectors and can be mated with female connectors. Connectwell inclined inlets are suitable for mounting onto panels which have a 'recess' behind them. The inclined inlets ensure that on mating the plugs remain at an angle to the panel surface thereby reducing the total space required for installation.

Technical Data

Material Copper Zinc Alloy (MS 58) Voltage Rating (V) 230 Current Rating (A) 16 No of Pins 3 Ingress Protection IP 67 Connection Screw Connection Contact Resistance < 1m? Suitable Wire Cross Section Stranded 4 Suitable Wire Cross Section Solid 6		
Current Rating (A) 16 No of Pins 3 Ingress Protection IP 67 Connection Screw Connection Contact Resistance < 1m? Suitable Wire Cross Section Stranded 4	Material	Copper Zinc Alloy (MS 58)
No of Pins 3 Ingress Protection IP 67 Connection Screw Connection Contact Resistance < 1m? Suitable Wire Cross Section Stranded 4	Voltage Rating (V)	230
Ingress Protection IP 67 Connection Screw Connection Contact Resistance < 1m? Suitable Wire Cross Section Stranded 4	Current Rating (A)	16
Connection Screw Connection Contact Resistance < 1m? Suitable Wire Cross Section Stranded 4	No of Pins	3
Contact Resistance < 1m? Suitable Wire Cross Section Stranded 4	Ingress Protection	IP 67
Suitable Wire Cross Section Stranded 4	Connection	Screw Connection
	Contact Resistance	< 1m?
Suitable Wire Cross Section Solid 6	Suitable Wire Cross Section Stranded	4
	Suitable Wire Cross Section Solid	6
