Ordering Information

Cat. No. Description Std. Pack CPIA51648 INLET 1

Panel Mounting Inclined Inlet - CPIA51648

These inlets act as fixed male connectors and can be mated with female connectors. Connectwell inclined inlets are suitable for mounting onto panels which have a 'recess' behind them. The inclined inlets ensure that on mating the plugs remain at an angle to the panel surface thereby reducing the total space required for installation.
